

Consent form

Version 3 | 28 July 2026

Study title: From public record to portfolio intelligence: validating LLM classification of the UK's register of accredited research projects.

Researcher: Dr Balint Stewart — balint.stewart@ucl.ac.uk

Principal Investigator: Dr Joseph Lam — joseph.lam@ucl.ac.uk

Department: UCL Great Ormond Street Institute of Child Health, Faculty of Population Health Sciences

UCL Data Protection Officer: data-protection@ucl.ac.uk

This study has been reviewed and approved by UCL LMS REC, Project ID 5004

Consent will be obtained electronically once through the Participant Information and Consent survey in REDCap. The items below are the wording displayed to participants.

If you confirm that you are the intended recipient and agree to take part, your personalised project list will be displayed. Each project review remains voluntary.

- ☐ I have read and understood the participant information above.
- ☐ I understand why I have been invited and what taking part involves.
- ☐ I understand that participation is voluntary and that I may review all, some or none of the projects offered.
- ☐ I understand that I should not disclose confidential, sensitive or otherwise non-public information.
- ☐ I understand that my information will be handled confidentially and that direct identifiers will not appear in research outputs, but complete anonymity cannot be guaranteed because the participant group is small and responses concern publicly identifiable projects.
- ☐ I understand that I may withdraw a submitted review by emailing the study team by Friday 2 October 2026, and that after this date responses can no longer be removed.
- ☐ I understand that if the study wishes to quote my comments, I will be sent the exact proposed wording in advance and it will only be used if I agree.
- ☐ I agree that my pseudonymised research data may be retained for 10 years and used by the research team for verification and further analyses directly related to this validation study and the improvement of the classification framework and dashboard .
- ☐ I am aware of who I should contact if I wish to lodge a complaint.
- ☐ I understand that choosing to be acknowledged by name is optional, is separate to my decision to take part, and would make my participation in this study permanently and publicly identifiable.

Intended-recipient confirmation shown in REDCap: I confirm that I am the researcher to whom this personalised link was sent.

Response options:

- Yes
- No

Consent question shown in REDCap: I consent to participate in the study. I understand that my name, professional email address, consent record, survey responses and optional free-text comments will be used for the purposes explained to me, that UCL is the data controller, that I can contact UCL's

Data Protection Officer at data-protection@ucl.ac.uk, and that according to data protection legislation 'public task' will be the lawful basis for processing.

Response options:

- Yes, I agree to take part
- No, I do not wish to take part

Recording of consent: REDCap will record the intended-recipient response, consent decision, date/time and participant-information version in a pseudonymous survey record. A 'No' response to intended-recipient confirmation or consent will end the consent survey and no project reviews will be displayed.

Re-consent: Consent will be sought again if the research activities or intended use of responses changes substantially.

Acknowledgement preference shown in REDCap: We would like to acknowledge the researchers who contributed to this study. Would you like to be acknowledged by name in resulting publications? Choosing to be acknowledged makes your involvement in this study permanently and publicly identifiable. Your answer does not affect your participation. If you decline acknowledgement, the study team will not name or acknowledge you in resulting outputs.

Response options:

Response options: Yes, I would like to be acknowledged by name / No, I would prefer not to be named / I would prefer to decide later. Please contact me about this
